

# Lovie Quarry & Concrete Products LLP

## Carbon Footprint Statement 2022/2023

July 2023

### Introduction

The organisation is committed to taking comprehensive action to reduce the carbon dioxide equivalent (CO<sub>2</sub>e) greenhouse gas emissions produced by its activities.

Carbon emissions from the organisation's activities are a driver of dangerous climate change, which represents a significant risk to both the organisation and the wider community. The organisation is keen to play its part in reducing the carbon emissions from its operations.

In order to measure progress on reducing its emissions, the organisation monitors emissions from each area of its activities, which are broken down into two scopes, as shown in this report. This report sets out the organisations carbon emissions for 2022.

The organisation is committed to a range of actions to reduce its environmental impact and make its operations more sustainable.

### Approach

The organisation has followed the Government's Guidance on how to measure and report greenhouse gas emissions.

## Declaration of Achievement of Carbon Neutrality

Entity making declaration	Lovie Quarry & Concrete Products LLP
Baseline date for programme	1st January 2021 – 31st December 2021
Period during which the entity is demonstrating carbon neutrality of the subject has been achieved.	1st January 2022 – 31st December 2022
Recorded carbon footprint of the subject during the period stated above.	Application period: 1399.98 tCO <sub>2</sub> e
How have the reductions in GHG emissions during the period been achieved?	Offsetting
Prior commitment to carbon neutrality made by entity	n/a
Location of GHG emissions report supporting this claim	Appendix A
Location of the Carbon Offsetting Plan	Appendix B
Type of conformity assessment	Self-certification
